

Description and Vision

The **AURAE** collection is a series of mirrors I've designed and fabricated to beautifully blend aesthetic form, symbolic intention, and a captivating touch of colorful playfulness.

Each AURAE mirror is a sculptural piece of décor, showcasing an iconic silhouette. From its core, three-dimensional waves expand outwards, creating a mesmerizing frame and a truly unique visual effect that is guaranteed to make a statement wherever you place it.

My initial inspiration was the ripples a drop creates on calm water. Over time, this visual idea evolved into the concept of representing the imaginary (or perhaps not) auras or expanding fields around objects, animals, and symbols. In my work, I also aim to express my natural irony, sarcasm, and a life attitude of not taking things too seriously—which is why, for example, in my world a moka pot, a banana, or even a cat can have an aura.

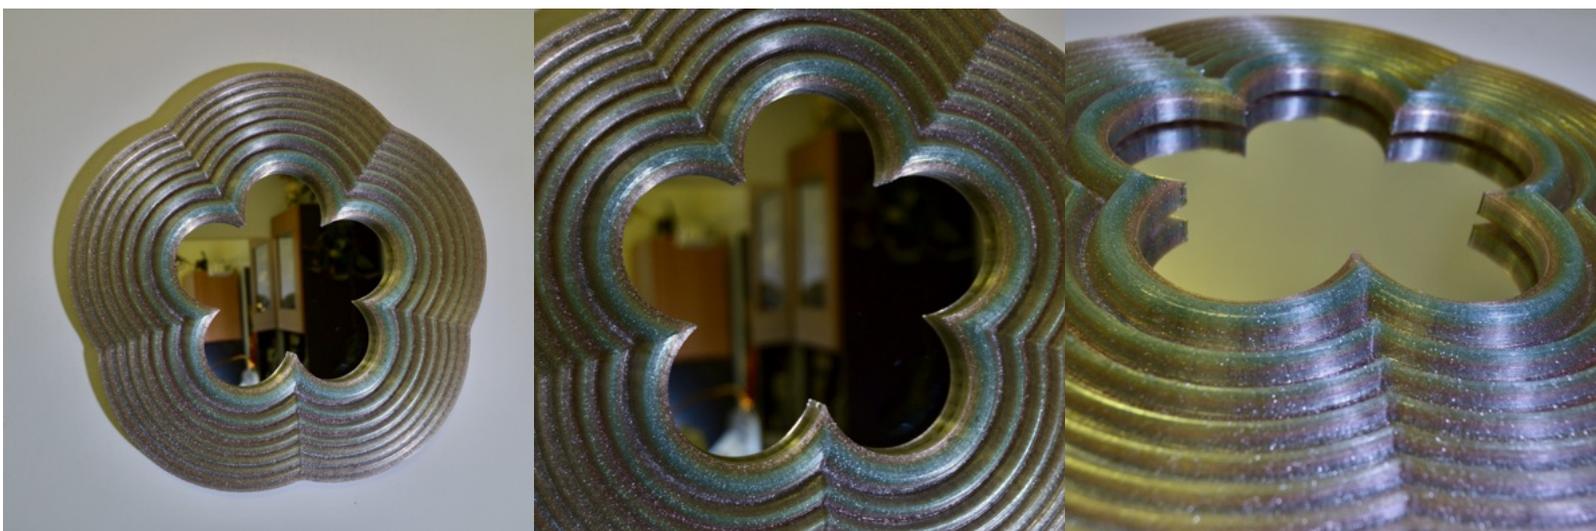

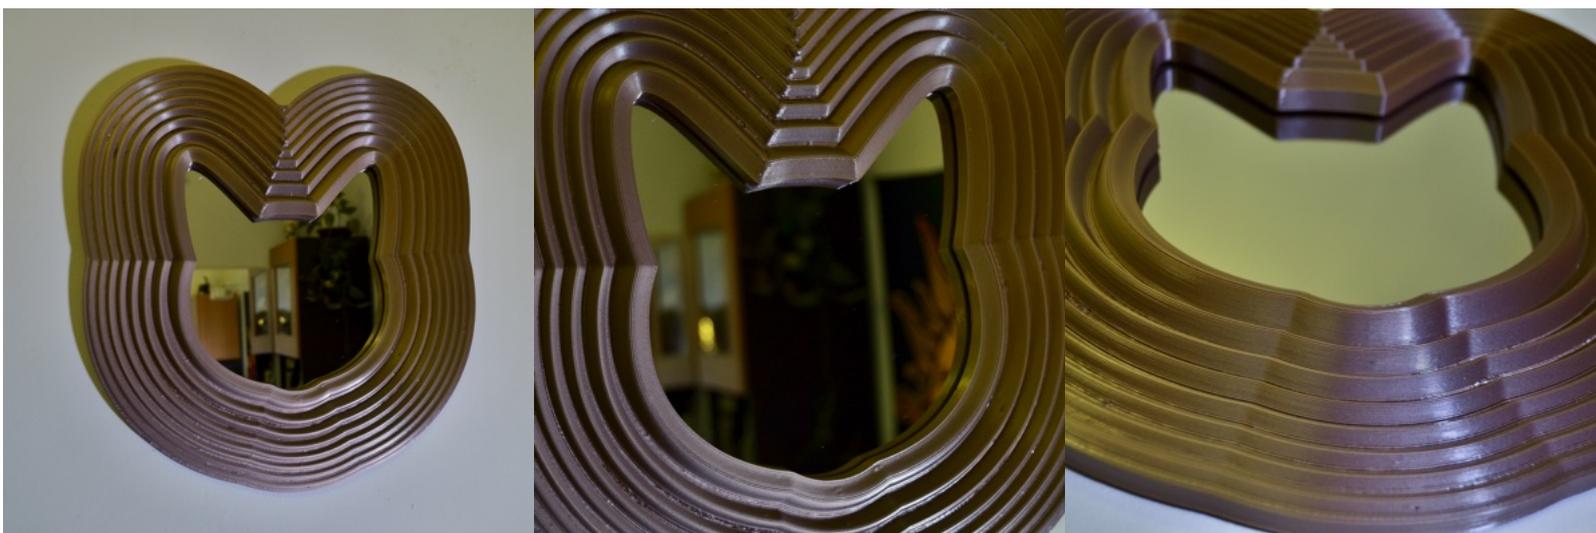

These original mirrors will surely appeal to people who value unique, meaningful, and dynamic designs for their homes, or anyone looking for the perfectly quirky, unforgettable present.

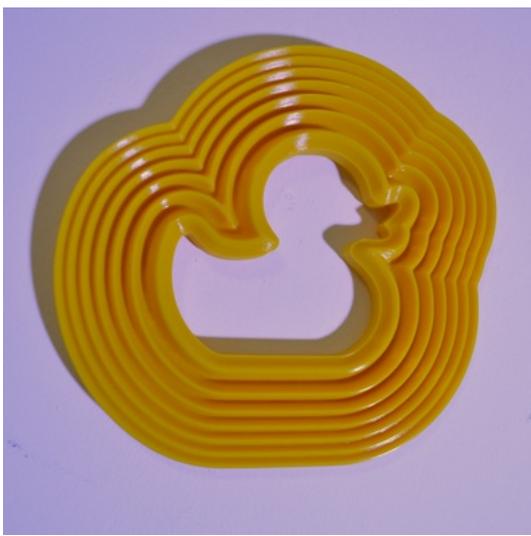

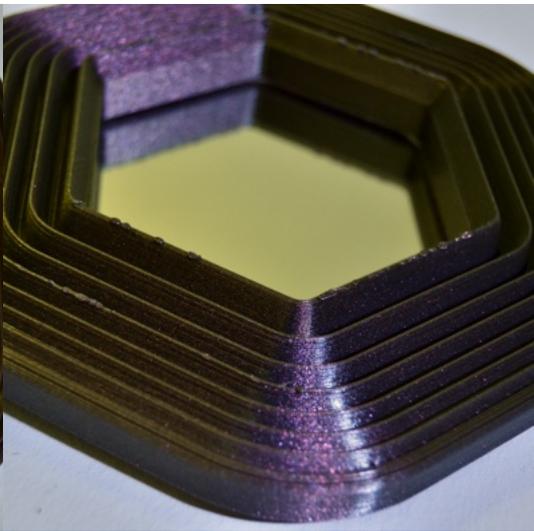

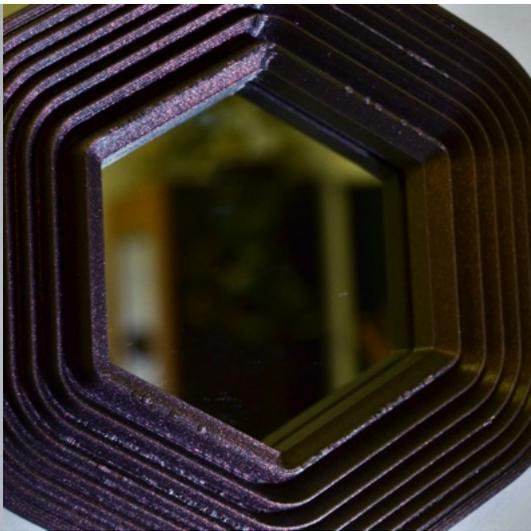

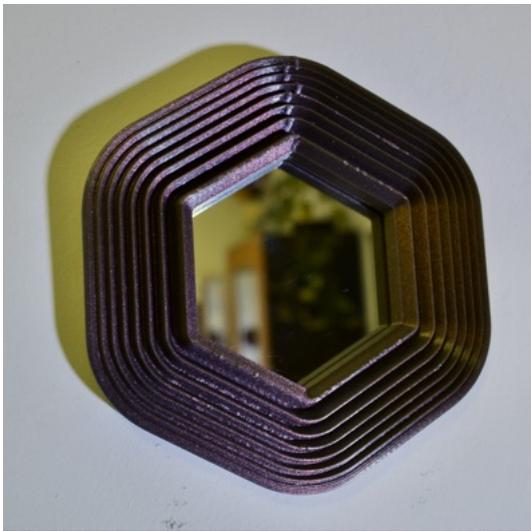

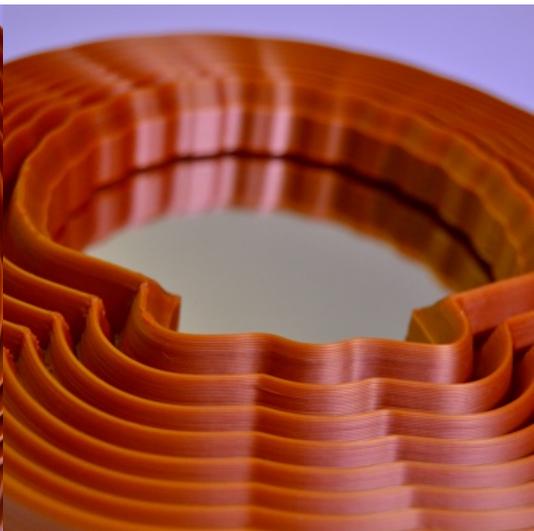

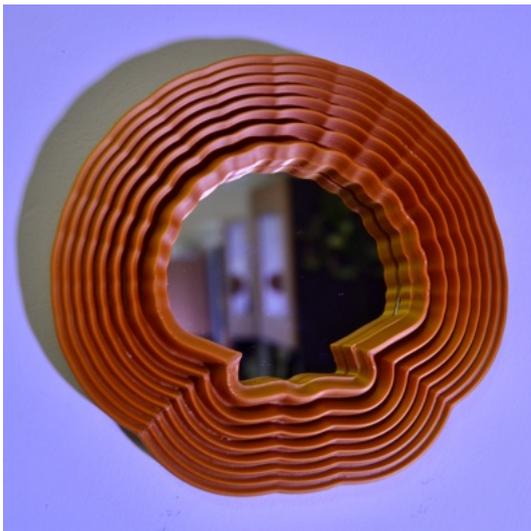

Technical Info

- The waves are designed algorithmically using Computational Design.
- Features a real mirror (not acrylic) for crystal-clear reflections.
- Available in 4 versatile sizes: Small (S: approx. 18 × 18 cm), Medium (M: approx. 36 × 36 cm), Large (L: approx. 54 × 54 cm) and Extra Large (XL: approx. 72 × 72 cm).
- A wide variety of vibrant colors and filament types are available, including standard, translucent, dual-tone, metallic, glow-in-the-dark, fluorescent (UV-reactive), glitter, and galaxy blends.
- 3D printed by me in durable PETG, a material suitable for indoor, outdoor, and even bathroom use. PLA is also an even more sustainable material with many color variations that can be used, but only for indoors and in places without direct sunlight.
- Mirrors are sourced locally in Barcelona.
